

ELIOS 2

INTUITIVE INDOOR INSPECTIONS

THE MOST INTUITIVE, RELIABLE, AND
PRECISE INDOOR INSPECTION DRONE.

KEEP YOUR WORKFORCE OUT OF HARM'S WAY

PERFORM FLAWLESS INSPECTIONS FROM THE FIRST FLIGHT

CAPTURE ACCURATE DATA WITH CUTTING EDGE CAPABILITIES

SAFE DRONES
FOR INACCESSIBLE PLACES

WWW.FLYABILITY.COM

DESIGNED FOR INDOOR

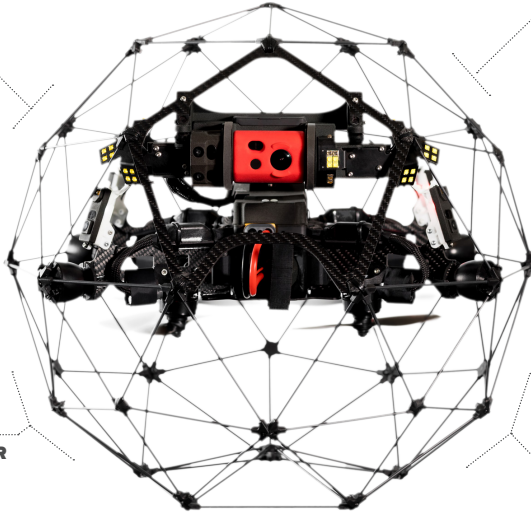

Collision-resilient
Shockproof payload
Confined space accessibility
Robust wireless transmission

INTUITIVE TO FLY

GPS-free stabilization
Distance lock
Full HD live streaming

BUILT FOR YOUR SUCCESS

Easy maintenance
Training included
Dedicated support team

DATA QUALITY

Close up inspection
4k Camera
Thermal camera
180° tiltable camera pod
10K lumen adjustable lighting
Dustproof lighting
Oblique lighting
Obstruction-free

DATA PROCESSING

Streamlined data management
3D modeling
2D measurement

DESIGNED FOR CONFINED SPACES

We believe that robots should be sent in hazardous places and dangerous situations instead of humans. Reinventing collision-resilience, Elios 2 allows you to capture every corner and inch of the most complex and confined assets, from a safe location.

INTUITIVE TO FLY

Get the job done! Elios 2's intuitive flight experience makes anyone feel like a seasoned pilot from the first flight. Perform flawless inspections with an effective and user-friendly tool, deployed within minutes.

ACCURATE DATA CAPTURE

When it comes to visual inspections, data is what matters. Elios 2's 4K camera gives you stunning, detailed 12MP stills and video recordings with 0.18 mm/px resolution to spot the tiniest cracks from floor to ceiling.

BUILD UPON ACTIONABLE DATA

Elios 2, Cockpit, and Inspector offer streamlined data management and optimize the way you work from flight planning to data analysis. Preparing reports, taking 2D measurements or building 3D models only takes a few clicks.
